Frameless Giclee on Canvas

W03011

"Earthtones" is a captivating abstract featuring a mix of blues, greens and varying shades of terra-cotta, woven seamlessly into a middle ground that serves as the heart of the composition. This vibrant core serves as an anchor while a gradual transition of subdued tones unfolds, adding depth and contrast. The absence of a traditional frame allows the artwork to extend beyond its physical boundaries. May be hung two ways. This giclee on canvas is handcrafted and printed in the USA. Artwork by K. Nari.
